

BITLITE
(BITE)

ABOUT

Bitlite (BITE) is a copy-trading platform specializing in cryptocurrencies. It involves mimicking the trades of successful and reliable traders, allowing users to potentially benefit from their expertise and strategies without needing to actively manage their rewards. This concept is particularly appealing in the volatile and complex world of cryptocurrencies, where expert insights can make a significant difference in reward outcomes.

Bitlite offers a variety of products and services tailored to different client needs within the realm of crypto trading. These may include features such as:

- **Trader Selection:** Providing tools to help users identify and select trustworthy and successful traders to follow.
- **Asset Growth:** Focusing on strategies that aim to enhance the growth of trader's portfolios over time.
- **Diverse Offerings:** Catering to a range of trader preferences and risk tolerances with different products and services.

Bitlite aims to democratize access to profitable trading strategies in cryptocurrencies, making it easier for both experienced and novice traders to participate in the market.

FOCUS

Bitlite aims to offer a comprehensive education program that covers all aspects of cryptocurrency rewards and knowledge about this space. Our team of experts is dedicated to providing high-quality, up-to-date content that helps our clients stay ahead of the curve and make informed decisions.

WHAT TO EXPECT

Bitlite offers affiliate marketing program which is a powerful tool for spreading awareness about the platform while incentivizing individuals who are knowledgeable and enthusiastic about cryptocurrencies. Here's how our affiliate program can benefit potential partners:

1. Monetary Incentives:

Affiliates earn commissions for every referral or customer they bring to Bitlite. This can be a significant source of income for those who can effectively market and promote the platform.

2. Community Impact:

By promoting Bitlite, affiliates help grow the platform's user base, potentially benefiting more traders looking for reliable crypto trading solutions.

3. Knowledge Sharing:

Affiliates can leverage their expertise in cryptocurrencies to educate others about Bitlite's features and benefits, thereby enhancing the overall understanding and adoption of the platform.

4. Flexibility:

Affiliate marketing offers flexibility in terms of how affiliates can promote Bitlite, whether through social media, blogs, educational webinars, or other channels that resonate with their audience.

5. Partnership Opportunities:

Building a network of affiliates creates a symbiotic relationship where both Bitlite and its partners can mutually benefit from each other's success.

Overall, integrating an affiliate marketing program not only expands Bitlite's reach but also engages passionate individuals within the crypto community who can advocate for its products and services authentically. It's a win-win situation for both the platform and its affiliates.

SIGN UP NOW ON BITLITE

We'll guide you through the sign-up process for Bitlite. Once you're done, you'll have access to our copy trading platform where you can join other traders, follow their trades and achieve your reward goals.

Fill in your Full Name, Username, Password and the Email address you use and would like to sign up with.

If someone has invited you to join Bitlite, please make sure to enter their username in the 'Sponsor' field during the sign-up process.

SELECT & COPY TRADERS

By clicking on SELECT TRADER in the left navigation bar you will find Traders that you can select to increase and grow your assets with a Trader that is providing his services for Bitlite customers.

PORTFOLIO MANAGEMENT

With Bitlite, on the left side of the back office, you will find the navigation with the "Assets" tab. Clicking on it will take you to an overview of the current status of your rewards.

1. "Trading Balance" shows you the total amount associated with your reward, including the return earned by our trader so far.
2. "Total PnL" displays the total profit earned so far, and also allows you to make deposits and withdrawals.
3. "This months PnL" shows you how much return you have earned in the current month.

ABOUT BITE TOKEN

Introduction to BITE tokens

1. Platform core assets:

BITE tokens are native tokens within the platform, designed to support and incentivize various activities and services of the platform. As the platform's base currency, BITE tokens play an important role in the entire ecosystem

2. Technical foundation:

BITE tokens are based on BSC blockchain technology, ensuring the transparency, security and immutability of their transactions.

3. Token economic model:

The issuance of BITE tokens is limited to prevent inflation and maintain the value of tokens. The distribution of tokens includes pre-sales, team holdings, community rewards and platform development funds.

Application of BITE tokens

1. Payment of transaction fees:

When users copy trade on the Bitlite platform, they can use BITE tokens to pay transaction fees. This not only provides users with a convenient payment method, but also enjoys a certain fee discount, thereby encouraging users to hold and use BITE tokens.

2. Rewards and incentives:

User rewards: Users who actively participate in platform activities and complete specific tasks also have the opportunity to receive BITE token rewards, thereby increasing user stickiness and platform activity.

3. Platform governance:

Users holding BITE tokens can participate in the governance of the platform and vote on major decisions of the platform, such as feature updates, policy changes, and community project funding
